

STUDENT ACCOMMODATION

Mercy Terrace, Lewisham

The scheme comprises the demolition of an existing commercial unit, and the construction of a 5 storey brick clad concrete frame with piled foundations and a new external sub station. The commercial units are on the ground Floor, along with the student common room. We have a mixture of Living roofs & paved terraces to complement the feature brick facades, some of which overlook the Mainline Network Rail lines into London Bridge, Cannon Street & Euston so have agreed a BAPA & gained early approvals for key activities with NR with only Scaffolding outstanding.
