

FLATS WITH BASEMENT CAR PARKING

YORK HOUSE, YORK ROAD, SUTTON

We were contracted to demolish the existing buildings on this site and construct a single block of 10 no. 1, 2, and 3 bedroom flats with basement car parking in York Road, which is a quiet byway of Sutton that is nevertheless convenient for Sutton's bustling town centre and nightlife

This was another speculative development for the private housing market and repeat work for this Client developer and fund.
