

Hathaway House, London

The Hathaway House project is a mixed use new build scheme to be built on behalf of Meadow Residential. Located on Woodfield Road near Westbourne Park Tube Station in West London is a development that will create 79 new luxury residential homes for Westminster, providing a 25% affordable housing contribution as well as 23,000sq ft of commercial / health care space. The finished building will be 14 storeys high and incorporate secure underground parking and expansive bespoke rooftop gardens. It is due for completion in 2019.
